

## **Momenta Pharmaceuticals Announces Appointment of Peter Barrett as Chairman of Board of Directors**

### **Appointment of Non-Executive Chairman in Alignment with Good Governance Practices**

CAMBRIDGE, Mass., June 13, 2005 /PRNewswire-FirstCall via COMTEX/ -- Momenta Pharmaceuticals, Inc. (Nasdaq: MNTA), a biotechnology company developing drugs based on its proprietary sugar sequencing technology, announced today that Peter Barrett, Ph.D., a Board member since May 2003, has been named Chairman of the Board of Directors. Alan Crane will remain President and Chief Executive Officer.

"Momenta continually evaluates ways to strengthen its corporate governance," said Alan Crane, President and Chief Executive Officer. "The Board has concluded that the Company should split the important roles of Chairman and Chief Executive Officer between two individuals. I look forward to continuing to work in partnership with Peter, as I will continue to focus on strategy and bringing products to market, while Peter will take a greater leadership role in corporate oversight."

Dr. Barrett was instrumental in the founding of Celera Genomics, which completed the first successful sequencing of the human genome, where he served as Executive Vice President and Chief Business Officer. Before founding Celera, he held senior management positions at Applera (formerly known as The Perkin-Elmer Corporation), most recently serving as Vice President, Corporate Planning and Business Development. Currently, Dr. Barrett is a Senior Partner at Atlas Venture.

The appointment of Dr. Barrett as Chairman is a result of Momenta's periodic assessment of its corporate governance practices and its Board composition. Earlier in 2005, Momenta announced that it had augmented the financial expertise on the Board with the addition of Marsha Fanucci, Chief Financial Officer of Millennium Pharmaceuticals, who has also assumed the position of Chairperson of the Company's audit committee. Momenta will continue to evaluate its corporate governance practices to meet the evolving needs of the company.

#### **About Momenta**

Momenta Pharmaceuticals, Inc. is a biotechnology company specializing in the detailed structural analysis and design of complex sugars for the development of improved versions of existing drugs, the development of novel drugs and the discovery of new biological processes. Momenta is also utilizing its ability to sequence sugars to create technology-enabled generic versions of sugar-based and biologic drug products. The Company's most advanced product candidate is M-Enoxaparin, a technology-enabled generic version of Lovenox®. Based on its understanding of complex sugars, Momenta has created a diversified pipeline of near-term product opportunities, novel development products and discovery candidates. Momenta was founded in 2001 and is headquartered in Cambridge, MA.
